Exam Attendance System

Introduction

Exam Attendance System is a web based system to facilitate and organize the process of students attending the exams, used by admins at Collage of Nursing – Jeddah (CON-J) King Saud bin Abadulaziz University for Health Sciences (KSAU-HS).
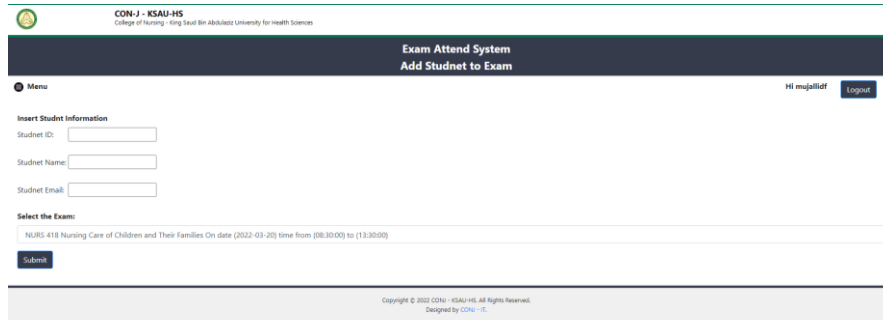

Main Features

The system has been developed with the following features:

- Login with KSAU username and password.

-
- Add new students by two ways:
    - Upload excel sheet with student's information, and select course, date, time from, time to and exam type.

    - Type student information manually with select one of the existing exams.

- View exam information with list of students details included:
  - With an option to change the status of student attendance.

- The system generates barcode QR for an exam to be scanned by student:

Target Users
