TO: **DEAN, COLLEGE OF NURSING**
King Saud bin Abdulaziz University for Health Sciences

FROM: **AHMED ALASKAR, MD, FACP, FRCPC**
Executive Director
King Abdullah International Medical Research Center
Ministry of National Guard- Health Affairs

SUBJECT: **Scientific Publication Book 2016**

Attached herewith the Scientific Publication Book of 2016 containing publications from authors of the academic medical center (MNG-HA, KSAU-HS and KAIMRC). It clearly shows a remarkable surge in our publication output. Publications were sourced from a number of well-known scholarly websites including ISI, Scopus, Google Scholar, PubMed and Science Finder.

In this context, I would like to remind all researchers from all MNG-HA facilities (including KSAU-HS and KAIMRC) and across all regions to use the official affiliation statement of our academic medical center. Using the official unified affiliation statement will improve the scientific standing of the organization in the international research community. The official approved affiliation statement is as follows:

**King Saud bin Abdulaziz University for Health Sciences
King Abdullah International Medical Research Center
Ministry of the National Guard, Health Affairs
Author's department, unit or section**

Furthermore, due to the increasing number of predatory journals, authors are encouraged to use journals listed on one of the five databases mentioned above.

Additionally, we have attached the latest edition of innovation magazine for your perusal. Innovation magazine reflects the pulse of biomedical Research in Saudi Arabia with selection of innovative science worldwide.

The book and the magazine will provide you the opportunity to explore the published papers presenting advanced basic, translational and clinical research conducted in the academic medical center and Saudi Arabia at large.
