- 19 participants filled out the questionnaire recommended this workshop to other colleagues.
- **How this workshop can be applied to the academic professions?**
  - how to write exam questions, how to interpret the item analysis, item analysis only.
  - Creating a blueprint from the scratch
  - Current teaching practices in nursing education and expectations from faculty
  - item writing
  - psychometrics analysis of the questions items
- **Comments**
  - thank you, kindly, consider sending the announcement of coming workshop to other campuses to attend online. This workshop has a lot of valuable information that all faculty should have. again thank you so much
  - excellent workshop
  - It was really informative workshop.
  - Fruitful presentation

- slides could be improved with simplified pictures with less written content, the speakers could have been more interactive with the participants by posting more questions to the audience.
- Excellent Job Dr Sharifah
- Very organized, well developed and presented
